

LE LINEE

LA GEOMETRIA UNITA ALL'ARTE

A cura della maestra Barbara Vallante e dei bimbi della 1 A
del plesso Marconi

Quante linee!

**La linea dritta va da qui a lì,
la linea curva sale e scende così.**

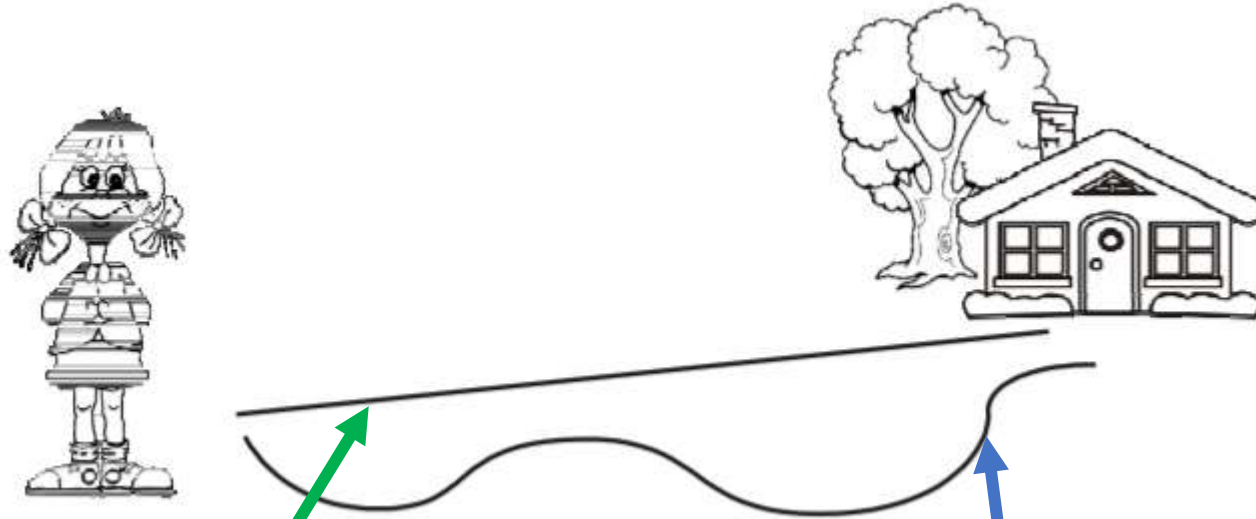

**La linea spezzata va su e giù,
per fare le montagne la uso di più.**

**La linea mista così è formata,
un po' curva e un po' spezzata.**

**Dalla linea chiusa non posso uscire,
nella linea aperta posso anche entrare,
e per finire c'è la linea intrecciata
che è un pochino ingarbugliata.**

Rita Sabatini
